MEET YOUR OCEAN BEACH NEIGHBORS

Richard Hilmen

(Studio of the Cliffs)

We realize that most of our readers already know Richard Hilmen, owner of Hilmen's Furniture Store and Vice-President of the Ocean Beach Chamber of Commerce, but we thought we'd give him a formal introduction anyway and let you know how he got that way.

Dick was born in Berwick, N. D., on Oct. 29, 1909. He attended grammar school there and at Grand Forks and high school at Lakota, N. D. After graduation Dick aspired for higher education so he enrolled in Concordia College in Moorhead, Minn. He attended Concordia for two years, studying for a Bachelor of Arts degree, then the depression struck and Dick decided to try his hand at working for a living. This he did in a variety of jobs, which, according to Mr. Hilmen, were "too numerous to mention." However, we did get him to admit that he worked in the Fargo County Court House for a spell, managed a restaurant for another period, and wound up as a road representative for a Fargo bedding manufacturer.

In 1941 Dick forsook the rigors of the Dakota climate and came to Ocean Beach. His sister, Mrs. P. W. Stark, was living here at that time and had given Dick the word about our fine community.

Dick worked for a time for the Union Furniture Store in San Diego, then in October, 1943, he went into business for himself, opening his furniture store in its present location, 1884 Bacon St. He has cut quite a swath for himself in Ocean Beach and is now treasurer of the Ocean Beach Kiwanis club in addition to his duties as assistant gavel-rapper at the C. of C.

He lives at 4817 Del Monte with Mrs. Hilmen and their 13-year-old son, Richard Jr. The Hilmens were married in Moorhead in 1932. Dick professes to great interest in fishing and traveling, but, like most Ocean Beach business men, he doesn't seem to find much time to indulge himself in these pleasures.

Council Talks of New Bay Point for Proposed Tent City

For several weeks there has been talk around the Civic center of a so-called "Tent City" to provide for summer tourists coming to San Diego, a "Tent City" patterned somewhat after one located near the Coronado hotel which a number of years ago attracted considerable attention.

At Tuesday's city council conference, reports Secretary R. W. Shaw of the Ocean Beach Chamber of Commerce, the proposed "Tent City" was up for considerable discussion by the city council. Of particular interest to Ocean Beach was the proposal to locate the "Tent City" on Gleason Point in Mission Bay, a location that is near to and opposite

Masters Outlines Plans for Center At Lions Meeting

Plans for the opening of the new community recreation center were outlined to the Ocean Beach Lions club by Harry Masters of the committee in charge of the center. Masters, guest speaker at the regular meeting Thursday, March 20, gave some of the background of the work which resulted in the building of the center. He explained how the building may be used by the various organizations of the community and told of the facilities that will be offered when the project is completed and opened to the public. Much credit for the successful completion of the recreation center was given by Masters to the work of the local committee.

Feature of the dinner preceding the program was the friendly rivalry of club members in the attendance contest now in progress between the "blues" and "golds." A chart displayed by Milt Plummer, captain of the "Gold" team, revealed the "golds" leading at present.

Kiwanians Given Program by Pacific Beach Kiwanis Club

Pacific Beach Kiwanis club, practically en masse, visited the Ocean Beach Kiwanis club at Tuesday night's meeting at Wallace hall and put on the program for the evening. Clark Williams, past president of the visiting club, was program chairman. Herb Russell of Pacific Beach sang a solo, and the program consisted of an official Navy film of the battle of Iwo Jima near Japan, in which 4000 U. S. Marines made the supreme sacrifice. The pictures were the most realistic as well as most gruesome of the kind that have been shown in Ocean Beach.

At the business session two visiting members from the Hemet, Calif. Kiwanis club issued an invitation to the Kiwanians present to attend the Ramona pageant to be held again near Hemet this season. Date for the Kiwanians to attend the pageant was announced to be April 26.

Walter Anderson of the Ocean Beach realty firm of Mr. and Mrs. Anderson was initiated as a new member of the club. Past Club President Myron Insko was the induction officer.

Erle Whipkey, Rotarian from Gooding, Idaho, was a guest of Frank Swan.

Survey Being Made Of Exhibitors for San Diego Co. Fair

Once again this summer, the products of San Diego county agriculture have a chance to stand on their own before a critical public when the 22nd District Agricultural association stages its second post war San Diego county fair at Del Mar starting June 27 and running for 10 days and nights.

Paul T. Mannen of La Mesa, president of the 22nd District Agricultural board, this week is making a preliminary survey of prospective exhibitors at this year's fair in an effort to get as complete data as possible in order to ascertain space requirements.

"Organizations, individuals and business firms contemplating being represented at the 1947 county fair can help us by informing us of their intentions early," Mannen said.

Prospects Lessen For Early U. S. Aid For Big Mission Bay Project

EXPECTED APPROPRIATION NOT INCLUDED IN BILL SAYS WASHINGTON NEWS

News from Washington Monday regarding the Mission Bay project wasn't so good. Evidence appears to be accumulating to the effect that the federal appropriation of $5,858,000 that had been counted on by San Diego city officials as the government's share of the cost of the improvement is not to be immediately forthcoming at the present session of the Congress.

In fact, the news dispatch Monday from the Capital city stated that the $5,858,000 item has not thus far been included in an omnibus Rivers and Harbors Spending bill which is expected to reach the House Appropriations committee in about three weeks.

The measure drafted by Army Engineers, however, will include $187,000 which would be used to reimburse the City of San Diego for money it is putting up to start preliminary work on the yacht harbor project.

In January War Secretary Robert P. Patterson approved an arrangement whereby the city would appropriate $187,000 to be used by Army engineers to prepare Mission Bay plans and specifications and for construction of the proposed yacht harbor's south jetty. This job will take a year and will be completed by the time Congress gets around to voting Uncle Sam's share of Mission Bay development funds, thus saving 12 months on the project's construction timetable.

Col. Peter A. Feringa, Chief of the Civil Works Division, Army Engineers, said a Budget Bureau edict had blocked inclusion at this time of the $5,585,000 item for Mission Bay. "A budgetary restriction prevents us from asking for funds for any project not now under way with Federal money," he explained. "No Federal money has been spent yet at Mission Bay, so it had to be deleted from our budget requests."

CENTER

on the "City's Responsibility for the Building." W. A. Kearns, superintendent of city playgrounds, will introduce the city recreation staff, after which the members of the Ocean Beach Executive committee for the center will be introduced.

All Schools Invited

Plans for the dedication and opening of the center to public use include all three public schools of the Ocean Beach area. The Elementary school will be invited to the building Thursday afternoon, April 10, and the Dana Junior and Point Loma high school students to the building Friday evening.

Following the program which will be conducted in the 94 by 55 foot auditorium-gymnasium, "Open House" will be held to enable all those present to inspect the 10 rooms of the building.

Miss Pauline De Grange and Miss Pauline Langston of the city recreation staff attended Tuesday's meeting and assisted in the "question and answer" period held. They stated that the grounds will be graded before the dedication and that the outdoor athletic facilities for tennis and other games will be provided later. They announced that the recreation department sponsored activities will have first priority on the use of the building, that youth serving agencies and schools will have second priority and that responsible community groups on a permit basis will have third priority, "first come first served," with rental fees to be worked out by the Executive committee.

Copy of the "rules and regulations" governing the use of the city's social recreation buildings that are supervised by the recreation department has been obtained by The News and is herewith published for the information of all Ocean Beach groups interested:

Rules Are Announced

The city of San Diego Recreation department administers several types of facilities that are available for public use.

The free facilities of the Department of Playgrounds and Recreation are primarily for the use of youth or adult activities sponsored by the department. At times when the department does not completely occupy a building, other groups may use the facilities under the following conditions:

1. An application must be filed with the Director of the area. If the space is available and upon approval of the Central office, a permit will be issued.
2. The application must be made by the individual assuming the responsibility for use of the building. At all youth activities, the adult signing the application must be present throughout the entire function.
3. Buildings are available from 10 a. m. to 10 p. m. If a group desires to meet outside these hours, special permission must be granted.
4. There shall be no admission charges except for those used to cover the expenses of the activities. The buildings cannot be used for fund raising or for commercial activities. If admission charge is made, a financial statement must be submitted to the Recreation department within 15 days.
6. No meeting for the purpose of exploitation of any sectarian religion or partisan politics will be permitted at any time.
7. No intoxicating beverages shall be introduced onto the premises.
8. Patrons will conduct themselves in an orderly law abiding manner reasonably expected of respectable citizens.
9. Each group shall assume the responsibility of leaving the facility and equipment as they found them. If breakage occurs, those who apply for the use are responsible and must pay for repairs.
10. The city cannot be held responsible for property left in the center.

Rental facilities are available to all groups in the community under the same regulation with the exception of condition No. 3. Buildings are available until midnight. Rental rates have been established for each building.

PHONE COMPANY READY TO ARBITRATE NEW WAGE DEMANDS OF THE UNIONS

Readiness of the Telephone companies to arbitrate the wage demands of 12 telephone unions was evidenced in letters to the unions offering to submit the question of wages to a board of arbitrators arranged through the U. S. Department of Labor, according to A. V. Engel, district manager. The offer was made both to those unions which have filed strike notices and to those which have not. Engel's district includes all Ocean Beach telephone users.

Engel informed The News Thursday that the arbitration offer was being made by the companies "in recognition that the public interest comes first, and to eliminate any reason for a telephone work stoppage which would be a disaster for the public. The unions' demands, if granted, would cost the companies, and ultimately the users of the service, about $100,000,000 annually. This is equivalent to $45 per year per telephone subscriber, or a 40 percent increase in all telephone rates."

The Public Interest Comes First

Telephone Company Offers Arbitration of Wages

In recognition that the public interest comes first and to eliminate any reason for a telephone work stoppage which would be a disaster for the public, the Company has offered to submit to arbitration the question of wages which is the fundamental issue in dispute.

A letter along the lines of the following is being sent to those unions which have filed strike notices . . .

Dear Mr. . . .

"During the past month the Company has met with you and with other union representatives to bargain on union demands for increased wage rates and for various other changes in working conditions.

"On wages, which is the fundamental issue in dispute, the Company's position is that the wages it is now paying compare favorably with wages now being paid generally in the area in which we operate for work requiring comparable skill and training.

"Since the Company and the unions have a difference of opinion on this matter, the Company is willing to submit the issue on wages to a Board of Arbitrators to be selected from a panel named by the U. S. Department of Labor. In fairness to all our employees, the offer to arbitrate the wage issue is being made to all unions with whom we have been in negotiation.

"This letter is a formal offer by the Company to submit to arbitration by such a Board the question whether or not basic wage rates now paid by the Company should be increased, the amount of increase, if any, in starting and top rates, the length of progression schedules, the intermediate steps in such schedules, and locality differentials. The decision of the Board of Arbitrators shall be final and binding on the parties.

"This offer to arbitrate is made in recognition that the public interest must come first and upon the condition that strike notices filed by the unions you represent are withdrawn.

"We would appreciate an early reply."

The company has made the same arbitration offer to those unions which have not filed strike notices.

Telephone employees, as is well known, have been fairly paid and well treated. Wage schedules have been increased several times in the last few years in addition to regular progression increases. The employees have good working conditions, steady work, holidays and vacations with pay, sickness benefits and pensions.

The company believes that the present contracts are liberal and is willing to renew them.

The unions' demands, if granted, would cost the Company, and ultimately the users of the service, about $100,000,000 annually. This is equivalent to—

$45 per year per telephone subscriber
40 per cent increase in all telephone rates

By any reasonable comparison, telephone employees are doing all right. That's the way we want it. But the public has a stake in the issue. The Company is already before regulatory bodies to obtain increases to meet current costs and major additional wage costs must be reflected in still higher rates.

The Company wants to be fair—fair to the employees, fair to the public who buy the service and fair to those who invest in the business. We believe that the present contracts which we are willing to renew are fair, but since there is a difference of opinion between the Company and the unions and believing it to be in the public interest we have made this offer to arbitrate.

Royal Neighbors Camp Celebrates 13th Anniversary

Ann Cordingly Camp, Royal Neighbors of America, was hostess to members, their families and friends at a baked ham dinner Friday evening at 6:30 in the Ocean Beach Woman's clubhouse in commemoration of the 13th anniversary of the institution of the camp.

About 100 guests were served including the guests of honor, Ann Cordingly, former district deputy who was responsible for organizing the camp, and her husband Frank Cordingly of National City, and Mr. and Mrs. E. C. Markham of San Diego. Mrs. Markham is the present district deputy.

At 6:30 the guests formed in line, led by Mr. and Mrs. Cordingly. They were served and seated at tables decorated with flowers and purple and white, the colors of the society. On one table was a large double deck birthday cake baked by the Oracle and holding 13 candles. Ann Cordingly was then escorted to the front, introduced and asked to cut the cake. She responded graciously with a short message telling of the progress of the camp and how happy she was to have had a part in organizing it. She thanked the members for extending to her and her husband an invitation to attend the dinner. Other out-of-town guests were Mr. and Mrs. Graves, formerly of Oakland, Calif.; Mr. and Mrs. W. H. Burkett of Missouri; Mrs. Graham and daughter of Kansas, and Mr. and Mrs. Kunath and family who recently transferred here from Sioux City, Iowa.

Community "Sing" Enjoyed

Following the dinner a community "sing" of Royal Neighbors songs, led by E. C. Markham, was enjoyed by all. District Deputy Enid Markham was then introduced. She expressed her appreciation in having been invited to attend this function and gave a short resume of coming events of interest including the district convention to be held May 1 at the Vasa clubhouse, on El Cajon Blvd.

The program was then turned over to June Stevens and Merle Arney who had charge of the social hour.

Next Meeting April 4

The next business meeting of the Royal Neighbors will be held in the Ocean Beach Woman's clubhouse on April 4, with Oracle Florence Danner presiding. Balloting and reception of candidates will be held. Pearl Strothers will be chairman of the refreshment committee.

CRACKING DOWN ON DRUNKEN DRIVING

A bill to crack down hard on those who mix drinking with their driving is being introduced in the California legislature.

Senator Dilworth, one of the sponsors of the measure, points out that, according to California highway statistics, it is the condition of drivers rather than the condition of roads that causes most accidents. He spiked the claim that the proposed $2.8 billion highway program would save "thousands of lives" each year.

"It is unfair," he declares, "to emphasize our highway development plan primarily as a safety program. . . . We need highway cosntruction all right . . . but it isn't the major key to safety."

Figures produced by Senator Dilworth show that two-thirds of all accidents in which the driver is at fault arise from drinking. Highway conditions are blamed in only 12 percent of the accidents, and in these, slipperiness due to wet weather appears to be the major trouble.

Now these statistics do not mean that better roads are unnecessary. But they reveal the "inaccurate" representations made to the people in regard to the highway program. These "inaccuracies" also extend to the claim that higher automotive taxes are needed now.

The bill to crack down on drunken drivers should be approved, but there ought to be a crackdown also on the exaggerated claims of the safety to be achieved, and the taxes needed in the proposed highway program.

ALASKA—80 YEARS

If reports are correct that the Soviets do not consider that the United States properly acquired Alaska from the Czar, they are just exactly 80 years late in bringing up the point—if there really is a point.

March 30 marks the 80th anniversary of the purchase of that vast territory from Russia. The price, you may recall, was the handsome sum of $7,200,000. And 80 years ago it looked like the Russians had the best of the deal. But time has proved otherwise.

Aside from the tremendous strategic importance of Alaska in this air age it has paid for itself hundreds of times over in the minerals and other natural resources which have been found there.

The value of the annual salmon pack alone runs around $50 million. Each year on an average of $26 million in gold is taken out besides several million dollars more in other minerals. Since 1880 the mineral output has amounted to approximately $650 million.

So, as compared to the original cost of $7,200,000 it wasn't a bad buy.

Although Alaska is still a comparatively little known and sparsely populated area it is now in line for statehood. From the present outlook it may be several years yet before it becomes the 49th, or more likely, the 50th star on Our Flag. But after eight decades of territorial status Alaska deserves to become a fullfledged member of these United States.

Gillian, and hopes to be an incorporated body by the date of the coming general meeting. Consideration is being given by the officers of the Chamber to submit to the membership a plan for support of the Highway bill now under discussion by the State legislature, and also for cooperation with Chamber and civic groups in major Arizona cities on tourist routings and accommodations, says the president.

A personal letter has been sent to approximately 200 new members announcing the coming meeting and a further invitation is extended to all residents and businessmen of the Mission Bay area, together with other citizens, who are interested in the betterment and expansion of this area, to attend, reports President Young.

MR. AND MRS. H. TRAVIS MOVE INTO THEIR NEW NINE-ROOM RESIDENCE

Mr. and Mrs. H. Travis, formerly of 4459 Cape May Ave., have moved into their new home at 1266 Moana Dr.

The house has been under construction since September last year and Mr. Travis himself was the contractor. While construction was under way, Mr. and Mrs. Travis traveled all over the United States, from San Diego to New York and from Canada to Mexico. They reported a wonderful trip and said that coming back to their new home was like reaching the end of the rainbow.

The two-story, white asbestos shingle house has nine rooms, six rooms on the main floor and three on the second. The home has many special features, including the "radio" room in which they are particularly interested since Mr. Travis' hobby is amateur radio. Other features are the three showers, cocktail bar, two-car garage, work shop, and laundry room.

Mr. Travis is a retired policeman and has lived in Ocean Beach for many years.

TENT CITY

the Mission Beach Amusement center in Mission Beach. Gleason Point is the largest point that has been built up thus far from the dredging of material from the bay.

The proposal discussed was approximately 100 duplex tourist cabins, painted and decorated to be as attractive as possible, to spring up on Gleason Point in Mission Bay by June 15. Made from converted barracks, the cabins would provide low cost accommodations for 200 tourist families in place of the "Tent City" patterned after Coronado's "Tent City" of the Twenties, which originally was discussed by councilmen.

City Manager Fred A. Rhodes was instructed to make every possible effort to have the cabins in place and ready for occupancy by June 15.

Details on operation of the accommodations will be worked out later, councilmen indicated, the important thing at present being to get started working on them.

May Use Barracks

The cabins probably will be made from former Marine Base barracks. Councilmen agreed informally to purchase 75 large barracks from R. E. Hazard Jr. and J. C. Slaughter, who said they hoped to get 50 to 75 more barracks buildings and would give the city priority on them. Hazard and Slaughter agreed to deliver the buildings to Gleason Point and erect them for $225 each.

Rhodes Describes Buildings

Rhodes said the buildings have good roofs, good wooden floors, plaster board walls, good windows and doors. Each will be partitioned in the center to allow for two-family occupancy, and a shower and minimum cooking facilities will be installed on each side. Community toilet facilities probably will be necessary at the outset, he said, but the buildings will be remodeled one by one as fast as possible to provide individual facilities.

Sam Lipsett, president of Sheridan Corp., offered to lease the land, erect and operate the buildings himself, or to lease and operate the buildings after the city has erected them, but councilmen deferred action on disposition of the facilities until they are sure it will be possible to put them into operation this summer.

Pointing out that plumbing fixtures are available from Navy buildings in Balboa Park, Mayor Harley E. Knox declared that "this is the city's chance to cash in on letting the Navy have Balboa Park during the war" and that "we're the biggest bunch of suckers this city ever saw if we let this opportunity pass."

In a prolonged discussion, councilmen made it clear that while the accommodations will be modestly priced, they will not permit the accommodations to become a slum area or ot go into competition with Federal Public Housing Authority units for permanent low-rent residents.
